CERTIFICATIONS

Oracle Cloud Infrastructure

- Gen AI Professional 2024
- AI Foundations Associate 2024
- Data Mgmt Foundations 2023
- Data Science Professional 2022

Nvidia

- Fundamentals of Deep Learning 2021

IELTS — British Council

- 8.5 — C1+

EDUCATION

MSc Computer Engineering

University of Padua (UNIPD)

Thesis: CV on banking docs — EfficientDet / TensorFlow for OCR & signatures

BSc Information Engineering

University of Padua (UNIPD)

In compliance with GDPR 679/16 and Italian
Legislative Decree 196/2003, I authorize processing
of my personal data.

PROFILE

AI Platform Engineer with 4+ years designing production-grade infrastructure for **AI/ML workloads**, computer vision, and cloud-native platforms. Proven track record managing **model drift**, **inference SLA compliance**, and **CI/CD pipelines** via **Kubernetes**, **ArgoCD**, and **Tekton** across **Azure**, **GCP**, and **Oracle OCI**. Strong collaborator with data scientists and engineers; hands-on experience in real-time edge AI delivering measurable operational impact.

PROFESSIONAL EXPERIENCE

AI Platform Engineer @ Primaton

Apr 2025 – Present

Migrated CI/CD from **GitLab** to **Azure DevOps** and a cloud-native platform on **Tekton** + **Google Cloud Build**, delivering **MLOps pipelines** for AI/ML models with **SLA enforcement** and **drift management**. Managed IaC with **Terraform/OpenTofu** and **Pulumi**; managed cloud networking (**VPC**, **VPC peering**) and **load balancers**; deployed and configured **API Gateway** based on **Envoy Gateway** for service exposure. Restructured data pipelines with a **Medallion architecture** introducing **CDC** (Debezium + **Datastream** for PostgreSQL→BigQuery including **WAL management**), **dbt**, and **Cube.dev** semantic layer. Drove **cloud cost optimization** with stakeholders; deployed multi-instance **Keycloak**, enforced **GCP IAM least-privilege**, championed **Grafana Alloy** + **Prometheus** observability stack.

Consultant @ Technology Reply

Apr 2021 – Apr 2025

Mar 2024 – Apr 2025

Project Manager & Cloud Architect — Sally CRM @ Reply

Led the development of **Sally CRM**, an **LLM agentic system** built on **LangChain** + **OpenAI models** (GPT-3.5-turbo, GPT-4, GPT-4o, o1, o3) implementing a **ReAct paradigm** for dynamic tool selection and multi-step reasoning. Designed an **API-first architecture** integrating internal product APIs as tools with **pre-server MCP** orchestration; monitored LLM pipeline behaviour and prompt performance in production via **LangFuse**.

Cloud Architect @ Stellantis

Aug 2024 – Oct 2024

Migrated BI & analytics microservices from **VMware Tanzu** to **AKS** with a custom **CI/CD pipeline**; led **MySQL 5.4 → 8.4** database migrations.

Cloud Architect & Computer Vision Engineer @ Fraport Airport

Aug 2021 – Jan 2024

Designed and deployed a **Kubernetes-ready GTE (Ground Transport Equipment) real-time tracking system** that virtually eliminated manual ground crew runs across airport aprons, directly accelerating baggage offload at Frankfurt Airport. Applied **MLOps practices** iterating detection models from **YOLOv5 → YOLOv8 → RF-DETR** (Apache 2.0), using **Azure ML Studio** for training and evaluation pipelines. Built an **airport intrusion detection system** with **OpenMMLab**; validated fully on-prem edge inference on **Nvidia Jetson Orin (64GB)** at **3× simultaneous RTSP streams, 25+ FPS stable**; deployed scalable **multi-site parking management** across multiple Fraport facilities.

Project Manager @ Piovan

Feb 2023 – Sept 2023

Served as technical bridge between **Italian client stakeholders** and **German development team**, conducting all communication in English (IELTS 8.5 — C1+). Managed backlog, sprint planning, requirements translation, and delivery sign-off across the full project lifecycle.

Computer Vision Engineer @ Banca IFIS

Apr 2021 – Jun 2021

Developed a computer vision algorithm based on **EfficientDet** fine-tuned with **TensorFlow** to automate the extraction of contract dates and signature recognition from scanned banking documents.
